- No monthly platform fee
- Card and PayPal checkout available

What you get

Your own website
Your shop on your own domain, not a listing next to hundreds of competitors on a marketplace.

Keep more of each sale
No listing fees or marketplace commission. Only the payment provider's fee if you take payments online.

Made for phones
Fast and easy to use on a phone, where most of your Instagram and TikTok buyers are.

Colours and sizes
Products can have options, and show ready to ship, made to order or sold out.

Custom orders
A page where people describe a commission: idea, colours, size and budget.

No monthly fee
Hosting runs on a free plan. You only pay for your domain, about $10–20 a year.

Questions

How do I pay?

By PayPal invoice in US dollars: half to start, half when your shop is ready to go live. You can pay with a PayPal account or a card.

Do you work with sellers in my country?

Yes. We are based in India and work with sellers anywhere over WhatsApp. Your shop shows prices in your currency.

Who owns the domain?

You do. It is registered in your name, and you renew it each year.
